

Cassette 1000 (projects)

230V/50Hz | 450 Watt

Experience Better Living

Cassettes

Picture the perfect fireplace. But forget about venting and heat, because flames are made of pure water vapour and LED light. Flames you can reach out and touch. The revolutionary Optimyst® Cassette models redefine the electric fireplace and enable you to add a dramatic fire feature to any space, with stunning realism. This Projects version even lacks the need of a periodic water refill, thanks to its permanent water connection. Ready to be combined and linked with a Cassette 500 Projects.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Connects to a main water supply, no manual refill needed
- Quick-fit IEC (kettle) connection for an individual fireplace of any length
- Crackling logs sound effects with adjustable volume
- Logset available as an accessory

All-round view

Surprising by the floating flame and smoke effect and variable flame intensity

Optimyst flame technology, flame patterns by cold water vapour

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately

Product is delivered without decoration, but can be decorated with a wood set (optional to be ordered)

Very suitable for installation
