

Cassette 400/600 LED

230V/50Hz | 125 Watt

Experience Better Living

Cassettes

The Cassette 400/600 LED inset fire unit not only surprises with its free floating flame and smoke effect, its modest size and variable flame intensity make it highly suitable for 'endlessly' creative interior solutions: placed as a single unit in a table or inside a gas or wood fireplace, or as a line of fire by simply putting several units alongside each other. The only connection you need is 230V. Just fill the reservoir with fresh water and click on the remote for hours of cosy ambiance, over and over again.

- Ideal for creative projects, to be installed in furniture or used for other decorative purposes
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- View of the fire from 4 sides
- Newly developed with LED lights for lower power consumption with a longer service life
- Crackling logs sound effects with adjustable volume
- Logset available as an accessory

All-round view.

Optimyst flame technology, flame patterns by cold water vapour.

Surprising by the floating flame and smoke effect and variable flame intensity.

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat.

Flames and lamps use energy-efficient LEDs that require no maintenance.

Product is delivered without decoration, but can be decorated with a wood set (optional to be ordered).

Control all functions of the fireplace from the comfort of your chair.

Very suitable for installation.
