

e-MatriX 800-1600 ST

BUILT IN

The Dimplex e-MatriX 800-1600 creates an exceptionally realistic fireplace experience by combining innovative Optimyst® flame technology with a striking architectural see-through design. Featuring an impressive 160 cm high flame view, it brings the ambience of a real fire to both sides of a space, creating a unique visual connection between rooms while maintaining an open and spacious feel. Lifelike flames, a highly detailed log set, integrated crackling fire sound and ambient bottom lighting create a captivating atmosphere, while the flame height can be tailored to suit your preferred mood and interior style.

Designed exclusively as a see-through fireplace, the e-MatriX 800-1600 seamlessly combines the appearance and presence of a traditional fireplace with the flexibility of modern electric technology. Requiring no gas connection, chimney or emissions, it provides a sustainable and future-ready alternative to conventional fireplaces. All functions can be controlled via the remote control or Dimplex e-MatriX App. With energy-efficient LED technology, intelligent self-diagnostic functionality and the choice of a fixed water connection or refillable water reservoir with pump, the e-MatriX 800-1600 delivers captivating three-dimensional flames, impressive architectural impact and comforting heat whenever desired.

- **Ultra-realistic Optimyst® flame technology** – Lifelike three-dimensional flames created using water vapour.
- **Vertical see-through design in 80 x 160 cm format** – An exclusive fireplace with impressive flame views from both sides.
- **A true eye-catcher in the room** – A stylish connection between living spaces with an open and luxurious appearance.
- **Realistic log set** – High-quality log decoration for a rich and authentic look.
- **Smart control via app and remote control** – Easily adjust the ambience and settings from anywhere in the room.
- **Flexible water supply** – Choose between a fixed water connection or a refillable water reservoir with integrated pump.

Experience Better Living

Available as a room divider or see-through fireplace.

Surprising by the floating flame and smoke effect and variable flame intensity.

New generation Optimyst technology, flame patterns by cold water vapour.
